GET CONNECTED

TO A POWERFUL, WEB-BASED TOOL
TO INTEGRATE ANY AFTERMARKET APPLICATION
OF INTERNATIONAL® TRUCK.

With one click, International makes the integration of body equipment with truck chassis a whole lot faster and simpler. For body builders, upfitters and businesses that integrate chassis, electronics and body equipment, International introduces Body Builder Resource Center. Here is a powerful online tool that helps body builders access information to help customize body equipment installation for the Industry's First High Performance Trucks.® The Web site provides extensive product information on all specs relating to our vehicles, from circuit diagrams to the body builder electrical book.

The Body Builder Resource Center Web site also provides sales information, technical information, publications, updates, body builder training, and technical bulletins, to name a few. Additional support and information is available for users of International's Diamond Logic™ Builder Advanced Logic.

Whether your application is utility, recovery, waste collection, construction, emergency or any other application, Body Builder Resource Center is a great resource to help your operation work smarter, faster and improve the quality of your body equipment installation. For more information, talk to your International dealer, your well-connected integration partner.
